Video Laryngoscopes

Xinwell

New Technology For Well Being

Advantages and Features

- 1 Efficient water resistance:**
IPX7 high-grade waterproof design, supporting immersion disinfection of the video laryngoscope.
- 2 Clear vision:**
High-definition camera with one million pixels, anti-fog laryngoscope blades with high transparency, 3.0-inch screen.
- 3 Accurate image:**
Large viewing angle (65°), reasonable focal length ; the curvature of laryngoscope blades conforms to the airway anatomy; the distance between the front end of the blades and the camera is small, and the blind spot is small.
- 4 Convenient operation:**
Light weight, anti-slip handle, ultra-thin design of laryngoscope blades , low mouth opening requirement.
- 5 Complete types:**
Providing children's dedicated video laryngoscope and laryngoscope blades.

Product packaging:

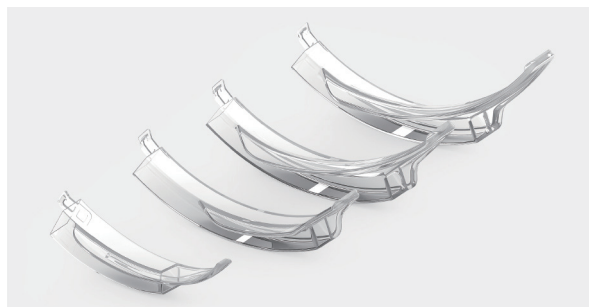

Video laryngoscope

- 1 video laryngoscope/box: 1 video laryngoscope + 1 adapter + 1 magnetic charging cable + 3 laryngoscope blades(1 large ,1 medium and 1 small)
- 4 boxes/carton

Laryngoscope blade

- 50 pieces/medium box; 2 medium boxes/carton

Product specifications:

Video laryngoscope model	laryngoscope blade size	Target user
XY-204-A1	XY-204-A-138	Large size for adults
	XY-204-A-126	Medium size for adults
	XY-204-A-114	Small size for adults
XY-204-B1	XY-204-B-087	For children

Product parameters:

Camera resolution	1 million pixels
Display screen	3.0 inches (720*480 resolution)
Battery capacity	3300mAh
Field of view	65° tolerance: ±15%
Light source illuminance	L=30mm ≥500 lx
Working range (depth of field)	20mm~60mm
Waterproof performance	IPX7
